

# Crisil Business School Grading

In 2010, Crisil pioneered business school (B-school) grading to recognise and nurture quality management education, while helping employers and aspiring management graduates find B-schools that best match their needs.

## What is this grading?

B-school grading by Crisil is India's first independent and rigorous grading service for the education sector, specifically to assess B-schools. A Crisil Business School Grading, assigned to a specific programme, assesses the ability of the institute to impart quality education and achieve desired student outcome through the graded programme.

- Our grading service provides national- and state-level grading through a comprehensive assessment of B-school educational programmes that can help identify and benchmark their quality
- Graded over 100+ programmes across 80+ B-schools in India
- B-school grading:
  - 1) enables benchmarking across institutions in India
  - 2) provides students with uniformity in comparison
