

Crisil AIF Benchmarks Methodology

Crisil AIF Benchmarks Methodology

Crisil AIF Benchmarks framework

Crisil AIF Benchmarks represent the performance of the respective AIF categories at an aggregate level. They are available at a category level, i.e., Category I, II and III. These benchmarks are calculated based on the disclosures made by the AIFs to Crisil.

The benchmarks are calculated both in rupee and US dollar terms and are available at a category level based on the vintage year of the fund. For returns in dollar terms, all the cash flows, valuations and index values are converted to US dollar based on the Reserve Bank of India's reference rates for the respective dates.

Returns for all the three categories are on a post-expenses, pre-carry and pre-tax basis.

Vintage year

Benchmarks for Category I and II are calculated based on their vintage years. Vintage year is defined as the financial year in which the scheme had its first close, i.e., the vintage year of a fund will be FY14 if it had its first close anywhere between April 01, 2013 and March 31, 2014.

Only those vintage years are considered that have at least three schemes available; those with less than three schemes have been excluded.

Calculation metrics

The benchmarks for Category I and II are based on the following metrics:

Pooled internal rate of return (IRR)

Pooled IRR denotes the IRR calculated at an aggregate level by pooling all the cash flows that have occurred within all the schemes belonging to the category and the vintage year. Here the cash flows are considered according to the date on which they have occurred and the valuation as on the last day is considered as the terminal value for the calculation.

Investment multiples and ratios

Three types of ratios are considered for calculation of benchmarks, viz distributions to paid-in capital (DPI), residual value to paid-in capital (RVPI) and total value to paid-in capital (TVPI). All the three ratios are calculated for each applicable vintage year.

DPI: DPI is the ratio of the total distributions made to the paid-in capital. DPI is also called as realisation multiple.

RVPI: RVPI is the ratio of the residual value of all investments remaining in the fund after distributions to paid-in capital. The residual value refers to the valuation of the scheme as on the date for which the benchmarks have been calculated.

TVPI: TVPI is the ratio of the sum of total distributions and residual value, to the total paid-in capital. It is also called as investment multiple.

Quartile Analysis

For understanding the distribution of IRR across the peer set, the returns for all the individual funds are calculated. First quartile, median and third quartile thresholds are reported. First and third quartiles are the return thresholds for the top 25% and 75% schemes, respectively based on the individual scheme IRRs in each vintage year. Thus, any fund with an IRR value above first quartile threshold belongs to the top quartile, similarly a fund with IRR value between first quartile and median belongs to the second quartile and so on. The fund with returns below the third quartile belongs to the bottom quartile.

For category III funds, quartile analysis is based on individual fund's trailing returns for various time-frames. Those funds have been considered that have been in existence as of September 30, 2025, and present for the whole time period.

For quartile analysis, only those vintage years have been considered that have at least 8 schemes available.

Public Market Equivalent (PME+)

Public Market Equivalent as a metric helps in comparing the performance of an AIF against any public index. The PME+ method tries to replicate the cash flows of the AIF to a public index. The cash flows, depending on whether it is an inflow or an outflow are invested and distributed to and from the public index on the same dates as that of the AIF. The distributions are adjusted using a scaling factor in order to avoid a situation where the public index is oversold and results in the negative terminal value.

Outlier adjustment

Outlier adjustment has been carried out for sub-category benchmarks under category I and II whereby, those schemes that have IRR beyond a defined threshold on the higher side have been excluded from the respective benchmarks. In all 7 schemes were excluded from all sub-category benchmarks because of this outlier adjustment.

The benchmark for Category III is based on the following metric:

Asset-weighted index

For Category III schemes, an asset-weighted index is created at the category level based on the quarterly returns of each scheme and the respective assets under management for those schemes.

The index is created from the quarter in which at least three schemes were available, i.e., June 2013.

Eligibility criteria

- All AIFs registered with SEBI under the SEBI (Alternative Investment Funds) Regulations, 2012, are considered for the calculation of benchmarks provided they fulfill the following criteria
 1. The scheme has completed one year from its first close as on the date for which the benchmarks are calculated. For example, AIF benchmark calculated for the period ending September 30, 2025, will have funds that had their first close on or before September 30, 2024
 2. Data is provided by the AIF in the required format within the specified deadline

- The following are excluded from calculation of benchmarks
 1. Angel Funds registered under sub-category VCF under Category I-AIF
 2. Fund of funds
 3. Any scheme that has not had any transactions or investments anytime in the past
 4. Any scheme that has not completed one year since its first close as on the date for which the benchmarks are calculated, i.e., September 30, 2025
 5. Any scheme that has not provided complete data or that has not provided data in the required format
- Schemes are divided based on their vintage years as described in the previous section. Only those vintage years are considered that have at least three funds available. Thus, schemes that belong to vintage years in which less than three schemes were available are excluded
- For quartile analysis, only those vintage years have been considered where at least eight schemes are available

About Crisil

Crisil Limited is a global, insights-driven analytics company. Our extraordinary domain expertise and analytical rigour help clients make mission-critical decisions with confidence.

Large and highly respected firms partner with us for the most reliable opinions on risk in India, and for uncovering powerful insights and turning risks into opportunities globally. We are integral to multiplying their opportunities and success.

Headquartered in India, Crisil is majority owned by S&P Global.

Founded in 1987 as India's first credit rating agency, our expertise today extends across businesses: Crisil Ratings & Crisil ESG Ratings (separate entities), Crisil Intelligence, Crisil Coalition Greenwich and Crisil Integral IQ.

Our globally diverse workforce operates in the Americas, Asia-Pacific, Europe, Australia and the Middle East, setting the standards by which industries are measured.

About Services Provided by Crisil Limited

Our Company (hereinafter, "Crisil Intelligence", "We") is the largest valuation agency for fixed income securities, and a prominent debt and hybrid index provider in India. We publish rankings for mutual fund schemes, and provide granular portfolio analysis services for asset managers, financial intermediaries, retirement funds and institutional investors.

Our industry research and data analytics platforms provide client with insights across the Economy-Industry-Company (EIC) landscape to help assess risk and opportunities.

Our Company reports (that combine select financial and non-financial data, analytics from our proprietary risk models, and commentary on company's financial performance) are used by commercial banks, financial institutions, and non-banking finance companies as part of their credit/ risk management process.

Our SME Gradings, used by lenders, assess creditworthiness of SME enterprises relative to the peers leveraging our proprietary grading model. The framework includes assessment of entity-level financial and operating performance, as well as industry-level drivers.

Our Fixed Income Indices provide standard and customized indices that are primarily used as performance benchmarks by mutual funds, insurance companies, and other investors in Indian markets and for creation of index-linked passive products by Indian mutual funds.

Our Valuation services provide equity valuation to Alternative Investment Funds ("AIFs") and other clients for their portfolio of investments in unlisted equity.

Our Valuation services provide a basket of valuation services for multiple RBI and SEBI-regulated instruments and debt securities, including government securities, state development loans, T-bills, money market instrument, corporate bonds, and market linked debentures and is used by various institutional investors, such as mutual funds, insurers, pension funds, provident funds, banks, corporates, AIFs, and PMS, for valuation of their portfolio or calculation of net asset value.

Our Mutual Funds Ranking, ranks mutual funds across equity, debt, and hybrid categories using peer performance and portfolio data and also provides customised ranking offered to the clients, such as wealth managers, distributors and corporates.

Our AIF Benchmarking creates comparable industry performance benchmarks for various categories of AIFs, prepares Performance Benchmark Report(s) for individual AIFs, and customized reports based on requests from AIFs, using data received from AIFs.

Disclosures

Product is Alternative Investment Fund Benchmarking. It is designed as a data analytics tool for informational purposes only and does not contain, or purport to represent any analysis, recommendation, or opinion to buy, sell, or hold any securities or provide any research analysis on any subject companies mentioned in this Product. The content in this Product is not an advertisement or endorsement or offer to sell any products of any third-party entities. This Product does not contain any price targets, earnings forecasts, or other forward-looking analysis, therefore, nothing should be interpreted as such.

It is clarified that this Product is not intended to provide a basis for any investment decisions. Nothing in this Product should be construed as an investment, legal, tax, or other advice. You agree to assume complete and full responsibility for the outcomes of all your investment decisions, including but not limited to losses, if any, that may be incurred by them. We shall not be responsible or liable for any losses, damages or other liabilities arising from of your investments in the securities markets. We advise you to consult your financial advisors or other qualified professionals before making any investment decisions.

The Product does not constitute a 'research report' as defined under the SEBI (Research Analysts) Regulations, 2014 ("RA Regulations") i.e., it does not involve any analysis, recommendation, or opinion on securities that provides a basis for an investment decision. Hence, this Product is not being provided under our research analyst license with Securities and Exchange Board of India ("SEBI"). This means that this Product is prepared independently of any research services and is not subject to regulations framed by the SEBI.

This Product is being provided in accordance with the terms of the contractual agreement between you and Crisil Intelligence and in adherence with internal quality assurance and governance policies. Kindly be advised that you may not have recourse to the regulator or access to grievance redressal mechanism(s) available under the RA Regulations, in connection with this Product.

It is clarified that you assume the entire risk of any use made of the contents of this Product. Crisil Intelligence, its directors, employees, and associates, will not be liable for any direct, indirect, special, incidental, consequential, punitive, or exemplary damages, including lost profits, arising in any way from the use of this report.

We may publish internally generated or externally sourced indicative summaries, updates, commentary, analysis and information related to various events, developments, concepts or principles in the Product. All summaries, analysis and information are subject to modification and may be updated from time to time. We reserve the right to rectify errors/discrepancies in the data and information provided in the Product, if any are observed or brought to our notice, at any point in time, without being liable for such errors/discrepancies.

Crisil Intelligence does not purport to disclose all risks and other significant issues relating to any investments. No representation is made as to the reasonableness of the assumptions made within or the accuracy or completeness of any data on past performances or historical analysis

Crisil Intelligence and its associates may have business relationships with the subject companies of the Product. Crisil Intelligence maintains and enforces internal policies and procedures to identify and manage potential conflicts of interest across all its business activities.

Crisil Privacy Statement

Crisil Intelligence respects your privacy. We may use your contact information, such as your name, address, and email address to fulfil your request and service your account and to provide you with additional information from Crisil Intelligence.
